Clark—

I apologize for having more changes; I believe this will be the end and we can get this signed.

I added scales to the two detailed maps. The one for Giles had a scale, but it was not accurate. It showed 1"=100', but the scale you told me, 1"=107.5' or rounded to 108', is correct. The map for the Myrin Pit had no scale.

The legal description for the Myrin Pit was partly wrong, so I've retyped Attachment A. To show how I got this legal description, I've included a copy of the topo map where I divided up the sections (this map is not part of the reclamation contract). It's based on your map.
